NUMANTEC®
HUMAN INNOVATION TECHNOLOGY

a Numantec Company

ABOUT US

Pentaferte is an Italian company which operates in European and extra-European markets. The industrial activity of **manufacturing medical devices** is the “DNA” of this Italian company which, over the years, has been able to follow and anticipate market developments, in terms of quality standards and demand for safety products in the medical world.

The production site in Campli, in the province of Teramo, is among the most important and complete facilities in Europe. The **commercial and administrative headquarters** manage the timely and efficient distribution of Penta products in all markets, through a network of distributors or directly to public or private hospitals.

In **October 2022** Pentaferte Italia became part of a big group through the aggregation of key-companies in their sector, the new group aims to become a European leader for the hospital and home sector.
